

Product: Speedometer	Description Hall Effect Sensor for VW	Date Dec 2004
Type: Electrical		1

Part Number: 340-011

Connection from Siemens VDO – Hall Effect Speed Sensor – Female connector 7/8 – 18 thread.

Have a speedometer machine shop remove (end) and shorten cable to the length you need (to mount it per your needs). Then have them install a male connection 7/8 – 18 thread end on your cable which will then screw into the Hall Effect Speed Sensor Part number 340-011.

Drive at wheel hub
